

28th COLUMBUS MARATHON
RACE COURSE ROUTE
2007
26.2 MILES

The Marathon will use all of Broad Street east to approximately Grant Avenue, where the runner will move to the eastbound lanes only to Nelson Road. Broad Street between Nelson and Parkview, the runners will have the entire street as they cross over to go north on Parkview to Maryland. East on Maryland to Drexel. South on Drexel to Elm. West on Elm to Columbia. North on Columbia to Powell. West on Powell to Parkview. South on Parkview to Main. While the Marathon runners are in Bexley, they will have all of the streets until they enter Main Street.

On Main between Parkview and Holtzman the runners will have only the westbound lanes. The runners will have all of Holtzman and all of Bryden Road as far west to Third Street. On Third Street between Town and I-70 the runners will have the east half of the street and vehicle traffic will use the west side. When the runners reach I-70 they will cross to the westside of Third at the bridge over I-70 into German Village.

In German Village, the runners will have all of Third between Livingston and Schiller Park and the entire street around Schiller Park to High Street. On High Street between Deshler and Long Street the runners will remain in the northbound lanes on the eastside of the street. **On High Street between Long and Spring they will be switching sides of the street running in the southbound lanes on the westside of the street. On High between Spring and Hudson they will be running in the southbound lanes only.**

Between Hudson and Dodridge the runners will have all of High Street. On Dodridge between High and Neil the runners will have the entire street. On Dodridge and Ackerman the runners will have the westbound lanes with traffic in the eastbound lanes between Neil and Kenny Road. On Kenny Road between Ackerman and Shady Hill the runners will have the entire street. When they turn on to Shady Hill, the runners will have the entire street up to Halesworth. They will also have the entire street on Trentwood, Halesworth, Kirkley, and North Star.

When the runners turn onto Lane Avenue, they will have all of Lane Avenue between North Star and Kenny Road. After they turn onto Kenny, they will have the entire street between Lane and Woody Hayes. On Woody Hayes the runners will stay in the westbound lanes on the north side of the street, till they cross the bridge over the river by Cannon where they move to the south side of Woody Hayes to College. On College they will have the entire road to W. 12th, on W. 12th between College and Neil they will have the entire roadway.

On Neil Avenue between W 12th and Buttles the runners will have one-half of the street running in the northbound lanes and vehicle traffic in the southbound lanes. The runners will have all of the street on Buttles between Neil and Park, on Park and Front between Buttles and Nationwide. When the runners turn onto Nationwide and the finish line, they will have the entire street.
